

At the forefront of innovation, SolVin started pioneering work in new information technologies and has already 5 years of experience in e-solutions. Together with our customers, we continually explore better and faster ways of doing business.

Our e-business package focuses on the needs of our clients, who can choose from a range of solutions combined according to their specific business needs. This includes our extranet business tool mySolVin.

Working with mySolVin will enable you to place orders via the Internet 24 hours a day, 7 days a week and to easily track your orders online in a structured and informative way.

For any further information or demonstration and to obtain your user-id and password for mySolVin please get in touch with your local SolVin representative.
